

## **OCCUPATIONAL HEALTH AND SAFETY**

Ames Europe aims to create safe work spaces and promote occupational safety culture with a proactive approach in Occupational Health and Safety, as it does in all other fields. In addition, Ames Europe also aims toward zero work accident and zero occupational illness performance by utilising an Occupational Health and Safety Management System (ISO 45001).

In regard of Occupational Health and Safety, Ames Europe is committed to:

- Identifying and controlling Occupational Health and Safety Risks,
- Continuously following up on national legislations and customer partnership rules regarding Occupational Health and Safety and to act in accord with these,
- Conducting Occupational Health and Safety activities in accord with internationally accepted ISO 45001:2018 management system standards,
- Periodically reviewing management systems and Occupational Health and Safety practices to ensure continuous improvement,
- Conducting trainings in order to ensure all employees are aware of their personal responsibilities regarding Occupational Health and Safety,
- Improvement of Occupational Health and Safety practices of its suppliers, committed to ensuring the right of all employees to participate and consult.
